OTD (Over Terminal Dispensers)

Location, Location, Location...The OTD dispenser offers the best way to put all your lottery products in one location.

- Up close and profitable – Display tickets are right in front of the customers.
- A variety of sizes and configurations allows customizing to fit the stores needs. No excuses from the stores, TAT will provide a unit to fit their counter.
- Easy to assemble – Set the upper unit on the legs and bolt into place
- Store personnel friendly – Easy to load and dispense the tickets.
- No on-line terminal on the front counter? Put the unit over any other equipment on the counter

OTD ASSEMBLY INSTRUCTIONS

PARTS:

- TOP PLATE WITH DISPENSERS MOUNTED ON IT – Note: some large blocks of dispensers will not require the bridge portion to span the opening.
- RIGHT AND LEFT UPRIGHT COLUMNS OF DISPENSERS

ASSEMBLY

STEP #1: On the top plate with the dispensers – remove the bolts and acorn nuts holding the outside (right & left) dispensers to the plate and set those modules aside and place the top plate with dispensers (step#1) on the top of those columns.

STEP #2: Stand the right and left upright columns of dispensers on the counter and place the top plate with dispensers (step#1) on the top of those columns.

STEP #3: Place the modules removed in step #1 back onto the top plate.

STEP #4: Line up holes for those top plate modules, the top plate, and the holes in the top unit of the upright column and bolt all together with bolts and acorn nuts removed in step #1.

STEP #5: Mount assembled unit where desired on the counter using “double stick tape” supplied or screws of your choice. **The unit must be secure to counter.**

STEP #6: Apply “stick on” numbers in the lower left and right corners on the customer side first. Numbering the modules left to right and top to bottom will aid customers in picking their tickets. Place numbers on clerk side corresponding with those placed on the customer side.

Take-A-Ticket, Inc. 800.253.4295 fax: 541.967.8415 info@tatinc.com

OTD MOUNTING TO COUNTER INSTRUCTIONS:

1. These units are mounted on the counter using double stick tape.
2. Thoroughly clean counter with alcohol or soap and water. Rinse well.
3. **MAKE SURE OF DISPENSER PLACEMENT PRIOR TO REMOVING COVERING ON TAPE!** Once placed, unit can not be moved.

OTD loading and dispensing:

1. Place a display ticket or last live ticket from pack in the display slot facing the customers.
2. Lay ticket pack in unit and feed first ticket through the ticket tightener on the door.
3. When dispensing, pull the tickets straight through the ticket tightener and tear up at the perforation.

Care and feeding of your lottery dispenser:

You Will Need:

1. Clean Lint Free soft cloths, 100% cotton diapers, or other very soft cotton cloths.
2. Use Brillianize or similar cleaner/polish designed for plastic.
3. Use mild detergent if a plastic cleaner is not available.

To Clean:

1. Working in small sections; spray small amount of cleaning solution onto plastic.
2. Wipe gently with clean lint free cloth until cleaner is totally absorbed.

NEVER:

1. Use *Windex* or other ammonia or alcohol based cleaners on plastic. These chemicals will damage the plastic.
2. Attempt to wipe plastic without using a cleaning solution.
3. Use Dirty Lint Free cloths. This will scratch your plastic.
